Abstract. *Nikola Tesla's visions and inventions realized in his controlled altered states of consciousness were considered previously as manifestations of his meditative insights within extended framework of quantum-holographic macroquantum correlations of individual & collective consciousness. This Tesla-inspired paper now focuses on some related psychosomatic aspects of quantum entropy & entanglement, and consequences on the usually observable biological arrow of time & spiritual-informational time reversal. Finally we discuss some spiritual-informational implications on free will & individual and collective consciousness reprogramming.*

Keywords: *Nikola Tesla, extended Hopfield-like quantum-holographic/quantum-gravitational (QHGG) framework, individual & collective consciousness, macro-quantum correlations, quantum entropy & entanglement, arrow of time & spiritual-informational time reversal, integrative medicine & transpersonal psychology.*

The paper is organized as follows:

Section 1 *introduces motivation for studying introspective evidence of Tesla's transpersonal creative communications in his meditative altered states of consciousness & extended QHQG clue for improving epigenetic strategies for integrative medicine & transpersonal psychology.*

Section 2 *focuses on some related psychosomatic aspects of quantum entropy & entanglement, and consequences on the usually observable biological arrow of time & spiritual-informational time reversal.*

Section 3 *considers spiritual implications on free will & individual and collective consciousness reprogramming,*

Section 4 *concludes that Tesla's overall research can be an inspiration for reconsidering global educational/informational/political goals – with a reorientation to holistic subtle actions for solutions of global risk society.*

1. INTRODUCTION

In past few decades there is increasing interest in **quantum-informational trends in (open) macroscopic quantum environments** in *biology, medicine, and psychology*, all the way down to quantum-informational *roots of the universe*, to name few of them. They are motivated by growing experimental evidences and/ or deep theoretical reasons which cannot be accounted by existing classical biophysical paradigm [1].

In this context, it seems that **Tesla's legacy for the new millennium** is **introspective evidence of his transpersonal creative communications** [2], with fascinating possibility of his meditative eidetic control & increase of macro-quantum correlations with the quantum-holographic primal source of collective consciousness, **as a clue for deeper understanding biophysical basis of creative processes** [3] (according to ancient Vedic knowledge **related to transpersonal interaction** with the deep level of consciousness called **Ritam Bhara Pragya**, described in Patanjali's Yoga Sutras and literally meaning 'when mind perceives things as they are' [4]).

Tesla's phenomenological insights could provide **additional understanding of our extended Hopfield-like macroscopic quantum-holographic / quantum-gravitational (QHQG) framework for non-local psychosomatics**, based on systemic decrease of quantum entropy & macro-quantum correlations of acupuncture system/individual consciousness & collective consciousness [3], which may provide clue for improving epigenetic strategies for integrative medicine & transpersonal psychology [5,6] – **based on methods & techniques for decrease of quantum entropy & macro-quantum correlations of acupuncture system/individual consciousness & collective consciousness** [7,8].

In this *Tesla-inspired paper* we shall firstly focus on some interesting QHQG psychosomatic aspects related to **quantum entropy & entanglement**, and consequences on the **biological arrow of time & spiritual-informational time reversal**, with final discussion on related **spiritual-informational implications on free will & reprogramming of individual & collective consciousness**.

2. QUANTUM ENTROPY & ENTANGLEMENT, ARROW OF TIME & SPIRITUAL-INFORMATIONAL TIME REVERSAL

According to our QHQG theoretical framework, **spontaneous transpersonal communications**, with exchange of information in transitional states of consciousness, would **have negative psychosomatic-spiritual effects**, giving rise to **global trans-generational increase of psychosomatic loads** on the level of *quantum-holographic network of collective consciousness* – which might represent the **sin/karmic engine of history**. The **all-forgiving prayer to ourselves & others** (*relatives, enemies, decised*) might be **only phenomenon which decreases these loads** – **via simultaneously vacuum-excited spiritually-purifying new macro-quantum portions of vital energy** (similarly to *spiritually-excited & mentally-channeled Ayurvedic, Qigong, Reiki & modern experiences of local & transpersonal healing [1,4,7]!*) **in prayer-related persons** – as (decoherence-like) **quantum-gravitational non-stationary indeterministic purifying interventions** in unitary intrinsic quantum-holographic stationary evolution of collective consciousness!

Within our QHQG framework, it is plausible to consider **healthy psychosomatic state** (*of acupuncture system/consciousness*), as the **simplest informational state of lowest quantum entropy** (*with single memory state*), and **disordered psychosomatic states** as more complex **states of higher quantum entropy** (*with additional side memory states, cf. Fig. 1*).

Fig. 1. Schematic presentation of the memory attractors in the energy-state hypersurface of *psychosomatic state of open macroscopic quantum-holographic acupuncture system/consciousness*, as proposed quantum-holographic manifestations of psychosomatic disorders (hundreds of them being in primary psychosomatic diseases and thousands of them in their combinations according to acupuncture-based *Tibetan traditional medicine*, with therapeutic goal to balance / remove all unwilling side memory attractors in procedure traditionally recommended half a year). Then, in the context of holistic acupuncture-based and consciousness-based approaches and techniques [7], their goal would be bioresonant excitation of the target palpatory-painful/psychologically-traumatic memory attractors of acupuncture system/consciousness. That enables disordered initial memory attractors to be one by one resonantly excited (similar to annealing procedure in *artificial neural networks* [9]), thus becoming shallower and wider on the account of deepening of (energy-dominating) memory attractor of the healthy quantum state (acupuncture palpatory painless/psychologically non-traumatic). This information of the healthy quantum state is then altogether *quantum-holographically projected* on lower quantum-holographic cellular level, thus *changing the expression of genes in morphogenesis*. Therefore, all holistic acupuncture-based & consciousness-based approaches and techniques could be treated as *quantum-informational therapies*, by imposing *new healing boundary conditions* in the energy-state space of the acupuncture system/consciousness.

Really, by considering **psychosomatic state** in generally **mixed quantum state**, described by **density matrix**:

$$\widehat{\rho}_{S_{kv}}^{(k)} = \sum_i |c_{k_i}|^2 |\phi_v^{(k_i)}\rangle_{S_{kv}S_{kv}} \langle \phi_v^{(k_i)}| \equiv \sum_i p_{k_i} |\phi_v^{(k_i)}\rangle_{S_{kv}S_{kv}} \langle \phi_v^{(k_i)}|$$

von Neumann's quantum-mechanical entropy $S = -k \text{Tr}(\widehat{\rho}_{S_{kv}}^{(k)} \ln \widehat{\rho}_{S_{kv}}^{(k)})$ reduces to **Shannon's classical entropy**: $S = -k \sum_i p_{k_i} \ln p_{k_i}$.

Then, **entropy of pure-healthy state** of psychosomatic system (described by single k_0 -th term in superposition, of probability $p_{k_0} = 1$), would be $S_{k_0} = 0$ (as **pure quantum state** $\widehat{\rho}_{S_{kv}}^{(k_0)}$ provides **maximal possible information** about quantum psychosomatic system), while **entropy of mixed-disordered state** of psychosomatic system (described by full above superposition), would be $S_{\widehat{\rho}} > 0$ (as **mixed stochastic state** $\widehat{\rho}_{S_{kv}}^{(k)}$ provides **uncomplete information** about quantum psychosomatic system).

Thus, in this QHQQ framework, **psychosomatic healthy state** is the state of **minimal entropy**, while **psychosomatic disordered state** is the state of **increased entropy**. So, application of **psychosomatic therapies naturally decrease entropy** (degradation) i.e. **increase information** (organization) of macroscopic quantum psychosomatic system – **with spiritual-informational time reversal** [Let us note that **quantum entanglement experiments** with time-reversed EPR also demonstrate that the quantum history observed may be **retroactively affected** by observations carried out much later, with possibility of *radical avoiding* any reference to objective reality altogether, as in Copenhagen Interpretation[12]].

It should be added that our macroscopic QHGG framework is also supported by fundamental **holographic principle** [13] according to which *any (3D) physical system is isomorphic to holographic information embedded on its (2D) surface*, which implies that the *full quantum-informational content of our 3D body could be quantum-holographically contained in the corresponding 2D surface layer – bearing resemblance to traditional psychosomatic concepts of energy-informational acupuncture system/individual consciousness* [1,10].

3. SPIRITUAL IMPLICATIONS ON FREE WILL & INDIVIDUAL & COLLECTIVE CONSCIOUSNESS REPROGRAMMING

In the context of *predestined trans-generational cosmic quantum hologram of collective consciousness* [1,4], in a **deep psychotherapeutic terminology** the possibility of *its reprogramming by spiritual purification* would be reduced to *dis-entangling/ un-binding* from almost *all levels of individual & collective consciousness*, and consequently to *full re-integration of the higher Self* – by its *re-union with spiritual primal source* (with previous mentally controlled systemic **spiritual decreasing** of macro-quantum correlations of individual & collective consciousness). This might leave most room for **free will** and influence on future preferences – making the *role of every person* indispensable due to influence & concern for **collective mental environment**, as elaborated in [14]!

On these lines, **holistic clue for healing boundary conditions in energy-state space of acupuncture system/(individual & collective) consciousness** should be taken into account, with significant psychosomatic implications on necessity of **three front lines of psychosomatic integrative medicine** [1,8] (i) **collective consciousness**, (ii) **acupuncture system/individual consciousness**, and (iii) **somatic level**.

It should be pointed out that **necessary activities in second & third levels**, but **neglect of first level**, would result in **further transpersonal transfer** of memory attractors on the level of individual & collective consciousness in this & future generations. So, this implies **necessity to focus on origins** of many psychosomatic problems on underlying **prenatal trans-generational levels**.

In particular, let us mention **South American ayahuaska tradition & Nigerian Abiku tradition** (with fascinating spiritual diagnoses & extensions of predestined-short-life programs) [17,18]; or **Hawaiian ho'oponopono tradition** (with remarkable reprogramming of life situations by contextual repenting & forgiving ourselves) [19]; or fascinating **world bestseller of Anita Moorjani** (on spiritual changing her life program with return from clinical death & after few weeks spontaneous healing of terminal phase of cancer) [20]; or **spiritual teaching of Bruno Groening** (with incredible healing channel remained open after his death, in optimizing both individual & collective life programs) [21]; or **Christian (hesychastic) Mysticism** with miraculous healing & optimizing life programs [22,23].

This greatly contributes to our understanding that **even most difficult psychosomatic disorders have their roots in the energy-information blockages, and that healing begins by removing them – first lovingly to ourselves, accepting ourselves & forgiving ourselves**, which is then manifested by **love to others & acceptance of others** (e.g. by spiritually disentangling/un-binding repentant-forgiving prayer [8,16]!

Thus civilization, via **synthesis** of scientific knowledge in the field of consciousness & millennia experiences of the spiritual traditions, could contribute that new millennium would be characterized by *wisdom*. Decisive role in this process could be played by all **religious communities, cultivating a true spiritual moral & absolute inter-personal, inter-ethnic & inter-religious tolerance**, as a measure of individual behavior from the **perspective of death**, i.e. amount of generated & non-reprogrammed psychosomatic conflicts until death, which determines the **spiritual evolution** of the soul of the deceased as well as the **preferences** of the individual and/ or collective future of the descendants – that can be **significantly altered only via collective prayer** for our neighbors & enemies, and consequently **individual & collective consciousness reprogramming** [24].

4. CONCLUSIONS

In this *Tesla-inspired paper* we considered some **extended quantum-holographic psychosomatic aspects** related to **quantum entropy & entanglement**, and consequences on the **biological arrow of time & spiritual-informational time reversal**, with final discussion on *spiritual-informational implications on free will & individual and collective consciousness reprogramming*.

In a wider context, *Tesla's overall research* can be an **inspiration for reconsidering global educational/informational/political goals** – with a **reorientation to holistic subtle actions for solutions of the global risk society**.

Author is dealing with the research and educational work in the fields of integrative biophysics, quantum medicine and quantum-holographic informatics for many years, and as a connoisseur of classical and quantum physics explains biophysical phenomena and provide arguments for the application of integrative biophysical diagnostic and therapeutic methods and techniques in medicine.

Bearing in mind that contemporary research indicates the increasing presence of psychosomatic factors in the origin of many diseases, then the inclusion of psychological phenomena (consciousness, stress, etc.) oriented to the treatment of man as a whole and not of diseases as symptoms, represents a shift in the diagnosis and treatment of human health, in respect to the classical medicine. The book also makes a shift in the field of traditional medicine, as it provides a satisfactory explanation for the application of some traditional methods and techniques...

The monograph is of the multidisciplinary character and is primarily dedicated to open-minded physicians who practice classical and traditional medicine, to specialists and students of the postgraduate studies in biophysics and biomedical engineering, as well as to all those interested in the application of new scientific methods and techniques in medicine...

– Djuro Koruga

According to the structure and contents, the book can be equally classified into a higher educational textbook, but also into a very advanced and specific (by issue and research approach) multidisciplinary (physics, biology, medicine, philosophy) scientific monograph.

The book offers a broader and deeper information about hot development of the biophysics of consciousness at the end of the 20th century and the beginning of the 21st century, which is not only of fundamental importance, but allows a wide implementation, from the genetic to biomedical engineering. In order to understand physics of living nature the whole tool of modern theoretical physics is used, in all levels: from molecular, via cellular and over-cellular, to bodily level, including the biosphere as a whole. Therefore, to help readers the appendices on quantum mechanics, quantum chemistry, and quantum informatics are added.

Generally speaking, before the readers is a unique book-monograph...

Prof. Dr. Dejan Raković CV

www.dejanrakovic.com

Professor Dejan Raković graduated *Engineering Physics* at the *Faculty of Electrical Engineering* in Belgrade as in 1974, and completed his *M.Sc. thesis* in 1977 in the field of *quantum theory of atomic many-electron correlations* (under supervision of *Prof. Djordje Živanović* and *Prof. Vojislav Radojević*), and his *Ph.D. thesis* in 1982 in the field of *theoretical vibrational spectroscopy of conducting polymers* (under supervision of *Prof. Ivan Božović*), at the *Physics Division* of the *Faculty of Science in Belgrade*. During 1980/81 he completed *postgraduate specialization* in the group of *Academician L.A. Gribov* in Moscow, renown authority in *theoretical spectroscopy and quantum chemistry of molecules, polymers, and crystals*.

Professor Raković has a *wide scientific interest*, broadly related to *materials science & biophysics*, covering the fields of *nanomaterials & biomaterials, nanotechnology & spectroscopy, bioinformatics of biomolecular, epigenetic, psychosomatic, cognitive & electrophysiological functions*. During his career he has been *supervisor* in 15 Ph.D. theses and has *published* nearly 300 papers & communications and over 40 books & proceedings, *cited* nearly 2000 times in scientific periodicals & monographs in Google Scholar. He has been also *referee* in over 20 scientific journals.

He got his first position at the *Faculty of Electrical Engineering* in Belgrade in 1977 and became full professor in 1997, where he has taught *numerous courses* until his *retirement* in 2016 (in *Materials Science, Biophysics, Biomaterials, Quantum Information*, and doctoral group of courses in *Nanomedicine*). He was *heading Department of Materials Science* in several election periods, undergraduate *Module of Physical Electronics* from 2012 to 2015, postgraduate *Materials Science Curriculum* from 1987 to 2005, and undergraduate *Biomedical & Ecological Engineering Curriculum* from 1996 to 2016.

Since 1995 professor Rakovic is being *co-founder & vice-president elect* of *Yugoslav Materials Research Society* (which has organized numerous annual international YUCOMAT conferences and *published 10 Proceedings*, and handbook *Biomaterials* (2010, in Serbian)). During the period 1995-1998 he *headed Brain & Consciousness*, regional project of *European Center for Peace and Development (ECPD)* of the United Nations University for Peace in Belgrade (and co-edited several books: *Consciousness: Scientific Challenge of the 21st Century* (1995); *Proc. ECPD Symposium & Workshop Brain & Consciousness* (1997); *Proc. Consciousness - Religion – Society* (1997, in Serbian)), while from 2009 he *headed ECPD International School of Quantum-Informational Medicine* (with (co-)authored textbook *Introduction to Quantum-Informational Medicine, With Basics of Quantum-Holographic Psychosomatics, Acupuncturology and Reflexotherapy* (2009, in Serbian)). In 1999 he *co-founded International Anti-Stress Center (IASC)* in Belgrade, becoming **president elect** of the IASC Governing Board, with *wide educational holistic anti-stress activities* (with (co-)authored *Anti-Stress Holistic Handbook, with Fundamentals of Acupuncture, Microwave Resonance Therapy, Relaxation Massage, Airoionotherapy, Autogenic Training, & Consciousness* (1999, in Serbian); *Proc. Science-Religion-Society* (2002, in Serbian); *Proc. Religion & Epistemology* (2005, in Serbian); textbook *Fundamentals of Biophysics* (3rd ed. 2008, in Serbian); monograph *Integrative Biophysics, Quantum Medicine & Quantum-Holographic Informatics: Psychosomatic-Cognitive Implications* (2009)); and scientific-popular book *Recollections, Dreams, Thoughts: About Past and Future 1984-2007. On Crossway of Quantum-Holographic & Classically-Reduced Reality* (2008, in Serbian). In 2009 he also *founded his Fund (DRF) for Holistic Research & Ecology of Consciousness*, with *wider promotive holistic activities* (including *Proc. Symp. & Round Table Quantum-Informational Medicine: Acupuncture-Based & Consciousness-Based Holistic Approaches & Techniques* (2011); *Proc. 1st Int. Congress on Psychological Trauma: Prenatal, Perinatal & Postnatal Aspects* (2015); and book *Prenatal Psychology 100 Years: A Journey in Decoding How Our Prenatal Experience Shapes Who We Become!* (2018), becoming *Whole-Self co-director* for Serbia).
